

View Lite II Mobile App

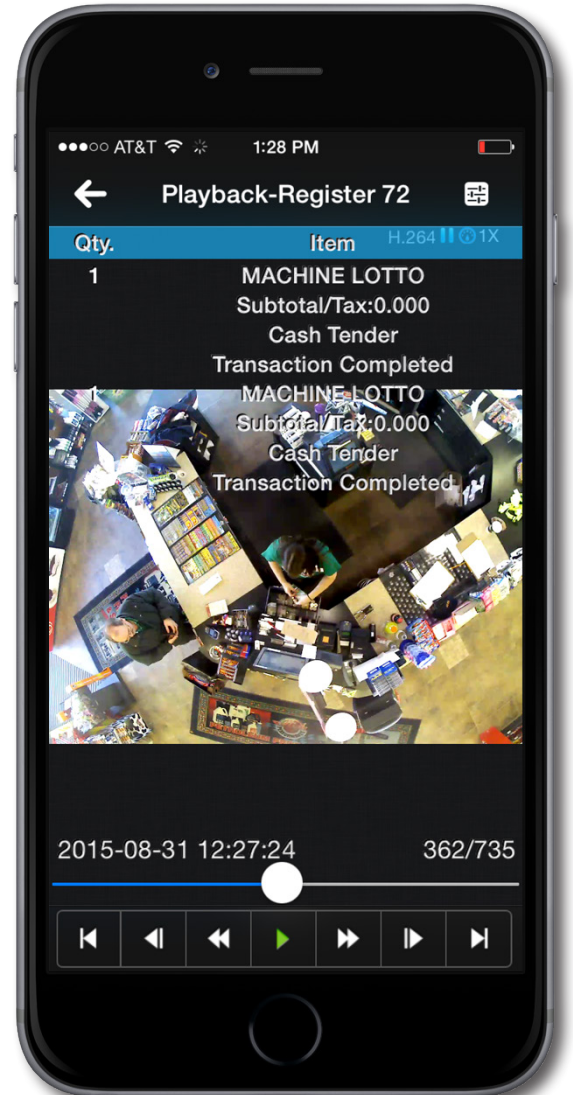

With 3xLOGIC's View Lite II, you can use your smart device to access and monitor your surveillance cameras. View Lite II is a mobile app designed to allow a user to connect to and view V-Series standalone cameras and cameras connected to a VIGIL VMS server. With a simple drag-and-drop interface and 9 different layout options, you can easily view up to 48 live camera feeds simultaneously. With alarm push notifications, D I/O support and POS/ATM searches, 3xLOGIC's View Lite II is an excellent way to quickly access your VIGIL surveillance system data anytime, anywhere.

Our intuitive interface takes full advantage of your devices touchscreen technology and delivers a simple, light and efficient mobile solution for your surveillance network.

Note: A web-enabled 3xLOGIC VIGIL Server or V-Series Camera is **REQUIRED** to use this app.

Features

- Unlimited number of VIGIL Servers (NVRs) and V-Series cameras
- Touch friendly interface to make Digital PTZ simple
- Live and Playback modes compatible with both H.264 and MPEG4 formats
