

Pelco Sarix IP Cameras Now Supported by 3xLOGIC VIGIL Product Line.

Clovis, CA and Victoria, BC (December 10, 2009) – Pelco and 3xLOGIC have entered into a strategic partnership, as 3xLOGIC joined the Pelco Partner First program. 3xLOGIC, a leader in NVR and Hybrid DVR solutions, and Pelco, a leader in video security systems, are pleased to announce their partnership and integration of Pelco Sarix IP network cameras into the 3xLOGIC VIGIL digital video management solution for a seamless, fully integrated IP solution.

Pelco, with a long and prestigious history of offering high-quality video security products and exceptional customer service, together with 3xLOGIC's history of manufacturing the VIGIL digital video management line of products, offer one of the best options in the market, which provides mutual customers with integrated solutions from these world leading providers.

"3xLOGIC has a strong commitment to delivering an open CCTV platform for our customers at very reasonable prices," says Michael Isakov, EMEA Sales Manager at 3xLOGIC. "The partnership with Pelco is definitely an additional major step for us to provide a higher value in the video surveillance industry."

Through this partnership, the 3xLOGIC IP surveillance products, such as multi-purpose digital video recorders, video analytics, and video management solutions, are fully compatible with Pelco IP cameras. The integration resolves the limitations caused by closed proprietary systems that currently dominate the global security industry. True open platform IP video solutions such as 3xLOGIC provide the freedom to choose best-of-breed components and integrations with other systems for a future-proof solution.

"The Pelco Integration into the 3xLOGIC solution met all of our goals to have this full integration available for all of our IP solutions," says Stéphane Lantoiné, Pelco Business Development Manager Integration EMEA. "This partnership shows the true open solution Pelco and 3xLOGIC are promoting."
