

3xLOGIC

Multi-Chain Retail Surveillance Solutions

Where **Your** Security
is **Our** Business

Video surveillance is one of the fundamentals of any retail location security management project. 3xLOGIC's video surveillance solutions are uniquely designed for scalable, multi-user and multi-site retail applications. 3xLOGIC's comprehensive line of IP and Hybrid video management solutions are uniquely designed to help retailers manage their operations based on risk and on profitability.

Our core solutions offer fully integrated site management tools that enable seamless video monitoring, recording, sophisticated video analysis, and other datasets, including audio, POS, ATM, and facility data. Simply put, 3xLOGIC's surveillance solutions will shape the face of your business, and ultimately – increase your profitability!

Better Business

3xLOGIC's retail surveillance systems brings intelligent video solutions to any sized multi-chain organization, helps retailers to reduce shrinkage, manage liability and loss, and increase sales and operational efficiency.

Based on local and remote video viewing capabilities, whether on-site or centralized, the system automatically assists in detecting theft, error and fraud, and expedites investigations. 3xLOGIC combines innovative video analytics with sophisticated and robust video applications to improve your business.

We ensure your ROI! Now your organization can profit from intelligent, enterprise-class video management.

Benefits

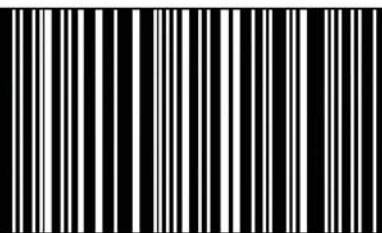

- *Comprehensive video analytics – prevents real-time security breaches*
- *Innovative hybrid video solution – ensures use of existing legacy video equipment*

- *Monitors and assesses employee performance and adherence to policy and procedures*
- *Significantly reduces site-to-site travel*
- *Provides interactive on-the-job-training*
- *Measures customer traffic flow and patterns*

3xLOGIC

Multi-Chain Retail Surveillance Solutions

"3xLOGIC's software is the most retail-ready product on the market."

*Terry Hunter,
Loss Prevention Manager, NIKE*

"3xLOGIC has been chosen as the standard DVR for Best Buy and Future Shop. Their solutions follow our high-tech philosophy as we move towards network-based, high-definition surveillance."

Brendan Alexander, Director of Loss Prevention, Best Buy

Unrivaled Technology

3xLOGIC's offering includes a comprehensive range of devices, integrated analytics, hybrid DVRs, video management solutions, and industry-leading business system interfaces. Using AZTECH video compression technology, 3xLOGIC applications result in a savings of up to 90% in video footage when compared to standard mega-pixel cameras. Retailers can enjoy the most advanced

IP cameras for better video quality while consuming minimal video footage. Every system is designed to seamlessly integrate with all POS and ATMs, providing video analytics and video intelligence, all of which are remotely and securely managed at multiple sites over narrow bandwidths via an Internet connection.

Features

- Expandable up to 32 channels per DVR/NVR
- Hybrid - DVRs are also NVRs with full IP camera support up to 960NTSC/800PAL
- 4Cif on Analog Video at 30NTSC/25PAL IPS recording in H.264/MPEG-4
- Up to 5 mega-pixel camera integration and support
- Enterprise Management - health monitoring, system configurations, and user roles & permission
- Scalable & flexible - simultaneous management of unlimited DVRs
- Remote Management Software - unlimited DVR/NVR licenses
- Export to all media types - internal HD/DVD, and external USB & NAS with unlimited storage
- Comprehensive POS & ATM integration - database integration with query and reporting SW

About 3xLOGIC

Innovative technology and strategic direction have led 3xLOGIC to a recognized position of leadership in the global digital video technology market. For nearly two decades, 3xLOGIC has provided thousands of customers around the globe with comprehensive IP video surveillance, analytics, and intelligence solutions.
