

The following is a list of added features and issues fixed in the VIGIL Video Management System software suite between VIGIL v12.00.0200 (January 24<sup>th</sup>, 2022) and the new release of VIGIL v12.00.0300 (June 13<sup>th</sup>, 2022). Each VIGIL product will be listed with its fixed issues and added features contained beneath it in the table. Please contact [3xLOGIC Engineering Support](#) if you have any questions or concerns.

### Column Explanation:

- **Ticket #.** - The listed issue's reference number
- **Issue/Enhancement** - Description of the issue/enhancement

### VIGIL Server - Includes VIGIL Video Verification, VIGIL Media Server, VPOS

Ticket #.	Issue/Enhancement
<b>Added Features</b>	
278319	Implemented POS Priority Camera settings
274398	Added functionality for VIGIL Integrity service to monitor the existence of some SQL reg keys and recreate them as needed
274349	Optimized VIGIL system SQL dependencies
274330	Implemented system to re-attempt to obtain status of NC / NO, with delays between attempts, for HIK DIO initialization failures
269033	Added verbose logging for HIK DIO initialization to improve troubleshooting capacity for possible DIO issues
<b>Issues Fixed</b>	
286139	Fixed issue where cameras linked to a motion alarm are not recording in alarm mode as expected.
283963	Fixed issue where VIGIL will stop interacting with CPRO capture cards after a shutdown
283962	Fixed issue where camera FPS change from "Set by Camera" to 1 FPS
283591	Fixed issue where VIGIL Video Viewer's Motion Channel display feature was failing to function
280254	Fixed issue causing UPnP detection to fail
278643	Fixed issue where Dual HV capture cards system registered for 24 hybrid channels will crash VIGIL Server
278166	Fixed issue where VX-20M-SURROUND-OD-RAW zoom control only works on channel 1
277956	Fixed issue with Axis Q3819-PVE camera decoding
274387	Fixed issue where, after a clean install, Sentinel warns about F:\Audio not being found.
273979	Fixed issue where, when updating VIGIL Server from 11.60.003 ->12.00.0200 with HIK Capture Card DS-4308, the system would fail to function.
271950	Fixed issue where Digital Input Email Notifications were getting flagged with V-POS Event Flags
271946	Fixed issue where Video Loss Email Notifications were getting flagged with V-POS Event Flags
271927	Fixed issue where POS/ATM Data Email Notifications were getting flagged with V-POS Event Flags
271139	Fixed issue where V-POS Event Flags are being populated even with non V-POS Event Flag type being selected
271135	Fixed issue where V-POS Event Flags - If more then 1 notification type of V-POS Event Flags are added it will break email notification for V-POS Event Flags

271074	Fixed issue where Email Notification Type V-POS Event Flag Does Not Apply Event Flag Correctly
270502	Fixed issue where users created with remote user creation are not associated with a group

## VIGIL Client

Ticket #.	Issue/Enhancement
-----------	-------------------

### Issues Fixed

276761	Fixed issue causing remote quick exports to throw errors when writing to DVD
274690	Fixed issue where changing the Capture Resolution or Maximum Recording Speed results in the user having no method of saving the new settings as the Apply and OK buttons fail to function as expected
274639	Fixed issue, where, when connected to two different servers simultaneously and attempting to open the server settings, client throws an Unhandled exception
269038	Fixed issue where, in Client v12, making settings changes to V11.00.0100 or older Servers disables channel 1
269035	Fixed issue where the Quick exports "Start Export" button does nothing when a DVD drive is selected

## VIGIL Central Management (VCM)

Ticket #.	Issue/Enhancement
-----------	-------------------

### Added Features

282522	Added per site logging for debug purposes
255261	Integrated VIGIL VCM with SNow API / ServiceNow

### Issues Fixed

283099	Fixed issue where VIGIL-Analytics.DVR database table may fail update for all servers
281533	Fixed issue causing SVCVCM deadlock during server list save process
276265	Fixed issue where buttons in Search Servers form are not disabled when no server data is present
269036	Fixed issue where, under some configurations, Active directory manager continuously attempts to log into VIGIL-DVR database on the local VCM Server

## VISIX IP Setup Utility

Ticket #.	Issue/Enhancement
-----------	-------------------

### Added Features

282556	Add DHCP settings support for VISIX Gen III Cameras
--------	---

## VIGIL Server Database Utility

Ticket #.	Issue/Enhancement
-----------	-------------------

### Issues Fixed

273998	Fixed issue where Custom TCP Ports entered on the database Settings tab of the VIGIL Server Database Utility would not apply properly
--------	---

## VIGIL Database Backup Utility

Ticket #.	Issue/Enhancement
-----------	-------------------

### Issues Fixed

<b>274371</b>	Fixed issue where the VIGIL Database backup utility was allowing backups to be written to OS drives
---------------	---

## VIGIL Sitemap Designer

<b>Ticket #.</b>	<b>Issue/Enhancement</b>
------------------	--------------------------

---

### Added Features

<b>284299</b>	Extended camera channel limit to 256.
