

FULLY INTEGRATED ACCESS CONTROL & VIDEO SOLUTION

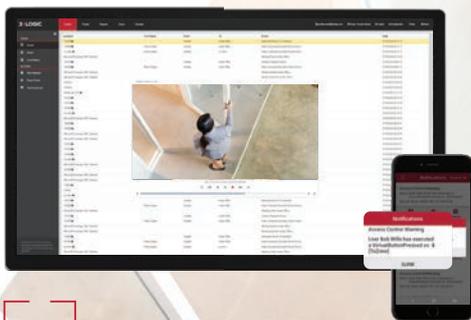

Managed On One Platform

One Solution For Access & Video Management

INFINIAS access control provides cost-effective security solutions that are easy to manage, simple to install, and designed to allow for the flexibility your customers need.

With the INFINIAS and VIGIL Video integration, your customer can view video from any door event or alarm in real-time, or play back clips from events in the past in either their mobile app or browser.

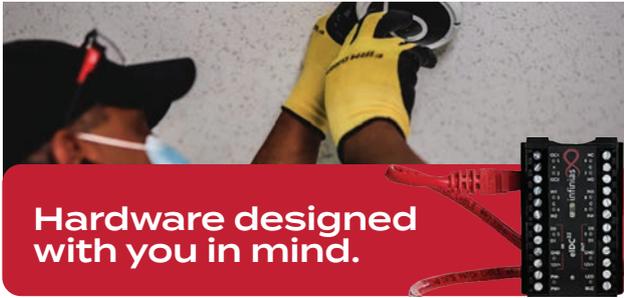

INFINIAS Features

- » Google & Microsoft Outlook Calendar Integration
- » Push Notifications to Mobile Device
- » Live Muster Reporting
- » Mobile Credential app
- » Powered via PoE (Install friendly)
- » Global Lockdown Across Multiple Sites
- » Wireless Lock Integration
- » Unlimited Quantity of Doors and Users
- » Video Integration

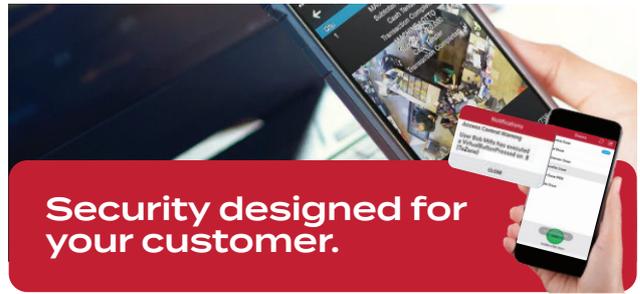

1
