

VIGIL V-POS 11

3xLOGIC's Point-of-Sale module, VIGIL V-POS, is a plugin that can be enabled on any 3xLOGIC VIGIL Server running software version 6.0 or higher. V-POS Search can then be accessed from within the VIGIL Server and remotely via VIGIL Client. Featuring seamless integration with VIGIL Trends, VIGIL V-POS opens several new possibilities to seeing your business differently.

Features

- Advanced POS Exception Reporting with daily, monthly and yearly reports.
- Full Integration with VIGIL Client's Shift Analysis Report
- Access to a library of over 150 POS and ATM integrations
- Fully searchable receipt data locally on the Server as well as remotely through Client or the View Lite II mobile app
- Synchronized video and POS data
- On-Screen Display of data in live, playback, and exported video
- Export of data into multiple formats for easy import into other programs
- Create local alarms and email alerts based on specific criteria
- Classify suspect transactions for review and escalation
- Configurable number of days of data storage
- Unlimited number of registers per site
- Map any number of registers to any number of cameras
