

VIGIL Solutions Digital Toolkit

VERSION 1.0 | NOVEMBER 2020 | EMEA REGIONS

3xLOGIC

www.3xLOGIC.com

INTRODUCTION

Data has changed our lives, the way we communicate, the way we interact. It's also transformed the way we look after the things we care about; like our assets, our businesses and our future. But data is nothing without insight. And insight is nothing without action.

3xLOGIC Integrates security systems , video surveillance, access control, point of sale systems, alarm management platforms and cloud based management systems. We make security management easier, more efficient and more powerful than ever, to unleash your business potential.

To not only put eyes on your business when you need them, but to give you a fresh perspective and help solve problems that you didn't know you had. To maximize efficiency, to minimize disruption, to open new possibilities.

DIGITAL TOOLKIT

This 3xLOGIC VIGIL Solutions Digital Toolkit is a user friendly document that has been designed to provide you with a one stop location to find all the information you will need for the 3xLOGIC Video Management Solution, this includes access to Case studies, Videos, Key Contacts and more.

THE 3XLOGIC ECOSYSTEM E-GUIDE

Download our E-Guide which explains how 3xLOGIC is taking security technology to the next level- with the integration of security systems, video solutions, access control, point of sale systems, alarm management platforms and cloud based management systems.

We call it the 3xLOGIC ecosystem. Learn how it captures and analyses “big data”, provides detailed insights and identifies the actions required to move a business forward – providing value far beyond security.

INTRODUCING VIGIL SOLUTIONS

VIGIL SOLUTIONS

3xLOGIC offers an incredible ecosystem of products and services, called the VIGIL Video solution, that add value to any deployment. Our product line includes cameras, VIGIL software, advanced image devices, recording appliances, mobile apps, accessories and mounts. With further hardware and software solutions in the pipeline. With this, you can build a wide array of different hardware and software set-ups to suit every site and team requirement.

RECORDING APPLIANCES

Powered by the VIGIL Video Management System (VMS), our recording appliances combine hardware and software to maximise their performance and functionality.

[Download our VIGIL NVRs Video Management comparison matrix to see the full range.](#)

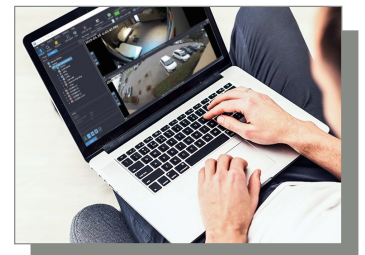

CAMERAS, ACCESSORIES AND MOUNTS

3xLOGIC cameras come in all shapes and styles to meet the needs of different organisations and sectors. From indoor to outdoor and hybrid models, and bullet and dome cameras, there is a range that'll suit you. Plus, with our seamless integration and support from our VMS, Client and Server, you can install different cameras across a site and have them work harmoniously together. Giving you the performance and clarity needed to remain on top of all happenings, along with some of the best pricing on the market. To view the full range, [download our VISIX Camera and Mount comparison Matrix.](#)

VIGIL SOFTWARE

The VIGIL Video Management System (VMS) is the driving force behind the VIGIL suite of products. Providing advanced features for large deployment projects, remote connectivity without advanced networking configuration, and easy set-up for inexperienced users.

INTRODUCING VIGIL SOLUTIONS

MOBILE APPS

To further enhance the installer and end-user experience, 3xLOGIC provides a range of mobile apps for remote viewing and easily configure installations.

3XLOGIC VIEW LITE II MOBILE APP

View Lite II is a mobile app designed to allow a user to connect to and view V-Series standalone cameras and cameras connected to a VIGIL VMS Server. With a simple drag-and-drop interface and 9 different layout options, you can easily view up to 48 live camera feeds simultaneously. Download App (iOs or Android)

- Unlimited number of VIGIL Servers and V-Series cameras
- QR Code Scanner to quickly add VIGIL Servers
- D I/O Device integration via VIGIL Server
- POS/ATM OSD for live and playback
- POS Search and POS Reports with one-click POS event playback footage
- Alarm push notifications
- Connect to VCM to pull a list of Servers
- 3xCLOUD account integration
- [Click here](#) for more information on the 3xLOGIC website

3XLOGIC VISIX V-SERIES SETUP MOBILE APP

Designed for use by field installers to efficiently setup and configure VISIX V-Series cameras. The utility will gather key installation information such as Site name, Location, Camera Name, and other key camera data. This information can be emailed to the client or managers for future reference and is used to setup and configure cameras with other 3xLOGIC software such as VIGIL Client, View Lite II, and VIGIL VCM.

- Download App (iOs or Android)
- QR Code Scanner (via Smart Device Camera)
- Manage login credentials
- Live camera preview
- 3xCLOUD integration - Instantly access your VISIX V-Series Cameras associated with the account
- [Click here](#) for more information on the 3xLOGIC website

You do not know what you're missing.

ONE END USER ACCIDENTLY
Turned off a camera that provided views of a parking area. VCM immediately sent an alert to the MSP, and the security administrator contacted the end user to get the camera back online.

Within 48 hours, the video surveillance system caught two perpetrators throwing a brick through a car window in the parking area and making off with a purse. The video images were extremely clear, and enabled the police to apprehend the suspects based on the video evidence. Without VCM, it's very likely the camera would have remained down, and the incident left unrecorded.

3xLOGIC's VIGIL Central Management Adds Value To Our Clients

“With 3xLOGIC's VCM as part of our full service maintenance system, we offer a whole new level of service, a true managed service. Now, we know when a camera is down before the end user does.” Unlike in the past, when you found out a camera was malfunctioning because you had no video of that recent incident you really needed to see.”

“VCM as part of a managed services offering significantly strengthens our value proposition. Our clients can rest assured that their cameras and video servers are functioning and that they will deliver video when it matters most.”

Jeremy Bates, Bates Security
Lexington, KY
Jacksonville, FL

PROGRAMS

At 3xLOGIC, we have developed the following programs intended to better serve our dealers and end users.

CERTIFIED DEALER PROGRAM

OVERVIEW:

We have an exceptional network for dealers who are certified to implement the solution that meets the needs of our customers and end users. Our tiered program consists of dealers who are certified in VIGIL, our Video Management Solution. These dealers can provide a truly unique experience to protect what matters most.

Contact your Regional Sales Manager or contact sales@3xlogic.com for more information.

DEALER INTERVIEWS

Want to know more about how we work with our dealers? Watch our dealer interview videos to find out more about the relationship between 3xLOGIC and our dealers.

VIDEOS AVAILABLE:

- Jeff Powell, founder of Sybran. [Watch here](#)
- Brad Edwards, Manager and Lead Design Engineer of Edwards Equipment. [Watch here](#)

TRAINING

HOW TO REGISTER: 3xlogic.com/training

CONTACT: training@3xlogic.com

COURSE DESCRIPTIONS:

Our products are designed to be very simple to install, configure and maintain, and we want to offer you the best way to be successful. We understand that Dealers, Integrators, and End Users alike have extremely busy schedules. Therefore, we now offer online, on demand training for our products. With on demand training, you can self-enroll into our courses when you need to and complete the course as you have time.

VIGIL COURSES OFFERED:

- Online, On Demand Certification Training
- Re-Certification Training
