3xLOGIC

Overview of security solutions for K-12 schools

What the American Rescue Plan means for K-12 Schools

Part of this package provides K-12 schools $130 billion in funding to safely re-open and remain open, while ensuring the health and welfare of students, staff and visitors.

Schools can access this funding to improve security and enhance school safety equipment and services, not only to address challenges brought on by the global pandemic, but to promote a safer, healthier environment for their student and staff population well into the future.

How can 3xLOGIC help to enhance school security?

In educational settings protecting students, staff, visitors and facilities is our top priority. Our security systems are perfectly suited to help maintain safety in K-12 schools.

Data & Insight
Protection is good, prevention is better. We go beyond traditional security by gathering insights that can help you eliminate security issues before they ever occur.

Integration & Scalability
School security needs to be agile enough to react to changing demands - our solutions make expansions and integration quick, simple, and cost effective.

Remote Management
Responsive safety features within integrated video and access control allow authorized personnel to have total visibility and control anywhere at any time.

Featured Solutions

Our solutions help to improve security and enhance school safety. The easy implementation of our hardware and software lets us craft integrated security solutions that meet the unique needs of educational facilities.

3xLOGIC INFINIAS

infinias Access Control Solutions
Cost-effective hardware and software that helps you control access points throughout your facility - schedule safety procedures from your calendar and react to events faster with instant push-notifications.

3xLOGIC VIGIL

VIGIL Video Management Systems (VMS)
Offering invaluable insights into your security, allowing you to record and stream feeds in real time via cloud or on-prem servers - going beyond simply viewing and recording by helping you to identify potential threats.

Gunshot Detection
Unpredictable active shooter situations happen all too often in schools. It's important to have safety measures in place as these tragedies escalate quickly before law enforcement can arrive. 3xLOGIC's award-winning Gunshot Detection solution can be an important part of your active shooter safety and security plan. By integrating this solution into your existing security system, you and your security team will be better prepared to react quickly and effectively in the event of an active shooter situation. **Gunshot Detection not only seamlessly integrates into our solutions, but also to any other deployed intrusion, video management, or access control solution making it simple to deploy.**
