Delivering connected solutions beyond security

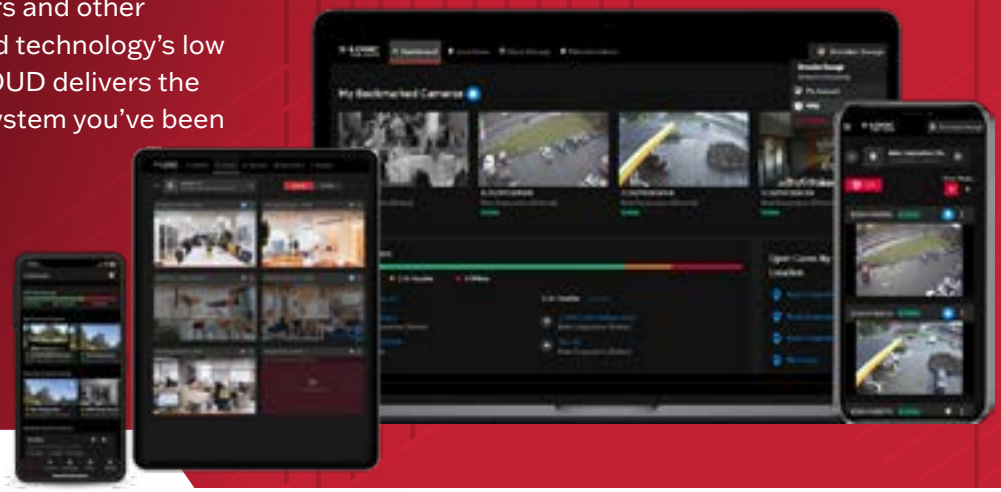
VIGIL CLOUD™

3xLOGIC

VIDEO SOLUTIONS

VIGIL CLOUD

VIGIL CLOUD extends the award-winning VIGIL Video Management System into the cloud with enhancements designed to harness the power, scalability, and ease of use that are the hallmarks of cloud services. Building on our 20+ years of experience in recording and managing video, VIGIL CLOUD brings a new paradigm to physical security through a powerful Case Management system that empowers users to share critical information and insights easily and quickly with team members and other stakeholders. Leveraging cloud technology's low cost of deployment, VIGIL CLOUD delivers the holistic view of your security system you've been looking for.



Quality Live and Event-Based Recorded Video

Detailed, clear multi-camera views identify suspicious activity and prevent shrinkage through high-resolution footage directly on the VIGIL CLOUD Web Viewer.

Efficient Case Management

Tired of saving video clips to a desktop folder to review later? Too time-consuming to organize video clips and notes needed to share with other parties? **VIGIL™** CLOUD's Case management is a simple, elegant way to select, store, and annotate a single clip or a combination of clips to be easily shared and stored for your immediate or historical needs.

Easy Set-Up & Usability

VIGIL CLOUD is easily managed when changing permissions or adding/removing users. Constant upgrades and updates ensure the user has the latest, most powerful features.

Use Cases

- Multi-tenant buildings
- Single or multiple store locations
- Healthcare — Medical Centers (Surgical Centers, Urgent Care, Dental Offices, Outpatient Centers, Elder Care Facilities)
- K-12 Schools, Preschools, Daycares, Community Colleges — Larger facilities where there are blind spots
- Storage Facilities

Future-Proof Your Solution

YESTERDAY

Video solutions require on-premise servers, recorders, and software to manage cameras and video.

Sharing business critical video content quickly and securely can be difficult.

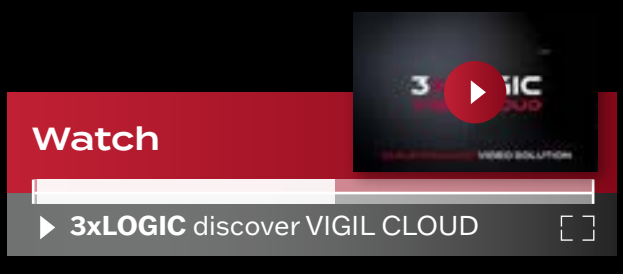
Software updates require coordination between several teams.

TODAY

Connected cameras require a smaller IT footprint.

All VIGIL CLOUD cameras store video locally and offer optional cloud backup of motion events.

Software updates are deployed seamlessly. Video content is shared safely and securely to authorized users.



A SIMPLE SOLUTION TO VIDEO SURVEILLANCE AND MANAGEMENT

Features:

- Easy to install, use and manage cameras via cloud or 3xLOGIC server if required
- Quality live and event-based recording, playback and download
- Supports all mobile and desktop browsers inc. notifications over SMS, email and web push
- On camera storage can be increased easily with a range of cloud backup options available
- Efficient case library, management and share functions for centralized collaboration
- Comprehensive account management
- Customer First privacy controls
- Mobile app and 3xLOGIC NVR plugin
- VIGIL Cloud End User courses

VIGIL CLOUD Works With:

- High quality cameras
- Local and cloud recording

CLOUD-CAPABLE VISIX CAMERAS

We have an array of NDAA compliant cameras to meet the needs of different organizations.

With our seamless integration, you can have different **3xLOGIC** cloud capable cameras installed across a site and have them work harmoniously together, giving you the performance and clarity needed to remain on top of all happenings.

Features and Benefits

- High quality images and materials
- Flexible cloud storage options
- Direct connection for easy video backup
- Remotely accessible
- Firmware updates scheduled and delivered
- Reliable local storage

Smart Search

VIGIL CLOUD™ SmartSearch functionality lets you identify and review events of interest quickly and easily – resulting in more accurate and efficient investigations.

Video review can often be a long and tedious task, SmartSearch eliminates the need to review hours of recorded video. Motion footage within a particular region of the scene is displayed along the timeline, streamlining the review process and providing easily accessible results.

VIGIL CLOUD SmartSearch provides seamless functionality between **3xLOGIC** VIGIL server and client-based solutions and our exciting Cloud offering. SmartSearch allows you to quickly filter or narrow down your footage search results to areas of interest within a playback field-of-view.

How does it work?

Simply select the region or regions of interest and select “Apply Filter” search. Footage of any motion detected within the region(s) is displayed along the playback timeline for easy review. If you don’t find the results you need, you can refine your regions and search again. Motion sensitivity can also be adjusted higher or lower to further refine your results. From your search results, you can capture video clips and/or still images to save into a new or existing case.

Benefits:

- More efficient video footage searches.
- Quickly navigate through large amounts of video.
- Narrow down search results to areas of interest.
- Now available in VIGIL CLOUD mobile app.

Mobile App

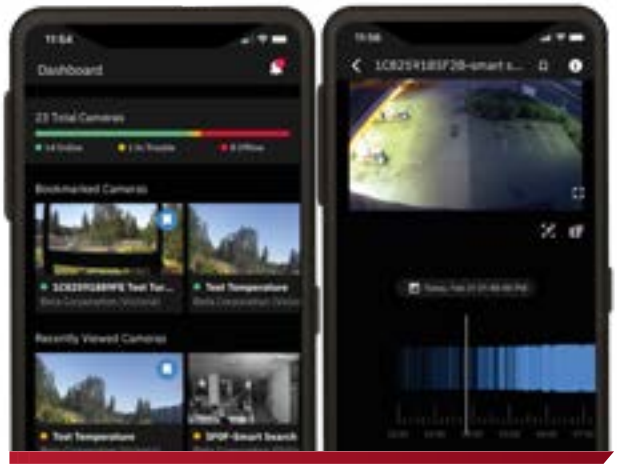
Although traditional laptops are more lightweight and portable than ever, they're not always convenient for quickly looking at live video or following along on a case. The VIGIL CLOUD™ Mobile App provides convenience for those who want to complete critical tasks within VIGIL CLOUD quickly.

The mobile application is intended to make tasks like viewing video/playback, case management, and viewing and reacting to notifications available through common gestures and movements users already know and use in other mobile applications.

The VIGIL CLOUD native Mobile App provides easy access to the VIGIL CLOUD application for users who are away from their computer, offering the ability to view live cameras, play back footage, comment on cases, and react to notifications from their existing iOS and Android smartphones.

How does it work?

Users simply need an existing VIGIL CLOUD account with at least one camera connected. Once they have created a username and password, they can download the application from the appropriate mobile app store.



Benefits:

- Users can access VIGIL CLOUD while away from their laptop or desktop.
- Quickly and easily navigate through the VIGIL CLOUD application's most important features.
- Remotely manage permissions and users from your mobile device.
- Access to all your video and case management data is available anytime, anywhere, from any device.
- VIGIL NVR Plug-In - Extend the capabilities of the solution with other manufacturers' cameras.
- Parity with web application.
- Bring on-prem server redundancy.

VIGIL CLOUD ENHANCEMENTS

3xLOGIC's VIGIL CLOUD solution has been enhanced to include additional features and functionality, which provide huge benefits to both dealers and end users. Improved dealer functionality means more opportunities for dealers to generate increased ROI and RMR, installation is now quicker and easier, and the remote management is more efficient than ever. The user now has more control, they have the choice to select 5MP @resolution and up to 365 days retention option per camera. The Case Management feature is now available on the easy-to-use mobile app allowing the flexibility for the user to be in control anywhere and anytime.

5MP Resolution Support

When onboarding a camera, dealers can now offer their customers 5MP resolution support to its retention options, this is in addition to the 2MP support already available. Other benefits of the 5MP resolution support include:

- Customer can change between 2MP and 5MP resolution when required
- VIGIL CLOUD cameras provide full MP support with the purchase of the camera
- Enhanced VIGIL CLOUD NVR Plugin Capability - Users can stream to VIGIL CLOUD for retention while at the same time maintaining visibility on the NVR with no configuration changes
- 5MP support customers will now have 25GB of case management storage available per camera (2MP support provides 10GB storage per camera)

180/365 Day Retention Options

Additional retention options for 2MP and 5MP resolutions are now available for VIGIL CLOUD. Dealers will now have optional 180 or 365 day retention options per camera.
As always, dealers can mix/match retention options based on the critical needs of the customers.

Case Management on Mobile App

VIGIL CLOUD's best in class video collaboration functionality - Case Management feature has been extended from its web application to our easy-to-use mobile app.
Customers can utilize case management features including:

- Build cases in the cloud with video clips and screenshots from one or more cameras
- Share cases with team members for review, comment, and resolution
- Easily download clips and still shots
- Find cases by resolution status, location or incident type

Dealer Functionality on Mobile App

VIGIL CLOUD is re-defining the way dealers onboard customers and cameras with the introduction of dealer functionality in our VIGIL CLOUD web app, this provides some great benefits:

- Increased ROI and RMR (Recurring Monthly Revenue)
- Easily onboard cameras by using QR scans, greatly improving installation time and setup
- Remote Maintenance
- Manage all customers and locations easily using our intuitive CLOUD workflow
- Identify customers and cameras that need attention

Are You Ready For The Future?

Leveraging Video As The Verifier

- Cloud hosted video powered by Amazon Web Services
- Creating Efficiencies
- Searching and creating cases directly in the dashboard, saving time, money, and resources
- Anytime, Anywhere, Any Device
- Easy to use video management platform
- Using data to become predictive and prescriptive

Case Studies – VIGIL CLOUD

VIGIL CLOUD extends the award-winning VIGIL Video Management System into the cloud with enhancements designed to harness the power, scalability, and ease of use that are the hallmarks of cloud services.
